Thank you for donating 393 lbs of food in 2021!

When you make any donation like food, toys or hand-made blankets or mitts, something happens in the transition of the gift. It changes somehow and takes on an additional quality and your gift, your donation, becomes more than the material value.

I have no idea how this happens, I just know that it does. The individual or family, who receives the food, or gift, feels, knows that someone cared enough about them to make a donation. It becomes personal, it becomes hope. For many people having a difficult time especially through the pandemic this is the greatest gift they can receive.

I cannot thank you enough or adequately express what I see happening in this community every day and especially during the Holiday Season. What you give is so much more than generosity, it goes much, much deeper, it is a genuine caring about your fellow neighbor and neighborhood.

On behalf of the people we serve,

Thank you for caring and offering hope.

Sincerely,

Trisha Robinson
Executive Director
