Dear Parents, Guardians, and Caregivers,

In support of Thames Valley's commitment to ensuring the safety of all students, inclement weather due to severe weather conditions, may require that schools be closed in specific areas or regions of the board.

Effective immediately, when the ***bussed schools, as listed below**, have bus route cancellations as a result of weather conditions, **those affected schools, located within the region or zone**, will be required to close and transition to remote learning on those days. This decision has been made given that staffing shortages combined with inclement weather pose a challenge in ensuring the safety of students. Our preference is to avoid combining classes, where possible.

We recognize that the closure of schools will have an impact on families who may be unable to care for their child at home. On-site Child Care Centres will remain open. Before/After School Programs will be closed.

Given the recent work by TVDSB staff to prepare for remote learning, the Thames Valley District School Board is positioned to offer a virtual option for students to learn during days when school facilities are not opened to staff and students.

During inclement weather/emergency school closure learning days, students will be able to access independent learning activities from their classroom's digital platform. Live or synchronous learning opportunities may also be able to be provided. Check your child's digital platform at the beginning of the school day for more details.

*A **bussed school** is a school that relies on regular bus transportation to bring students to and from school. This does **not include** students approved for Specialized Transportation through the TVDSB Special Education Department.
